

PREDICTS CLEAN-UP OF MOVIES

Whealthy Shelby, Ind. Man Who
Winters At Hollywood Dis-
cusses Arbuckle Case

John Tully, owner of thousands of acres of land on the Kankakee river, and a resident of Shelby, is not surprised at the "Fatty" Arbuckle scandal. Stopping at the Majestic Hotel, in Hammond, Tully, who spends his winters in California, talked about the life in the movie colony at Hollywood.

"I lived in Hollywood last winter," said Mr. Tully, "and I am not surprised that Arbuckle finds himself in this predicament. His parties were notorious. I believe this scandal will have the effect of putting a damper on the rough-neck element in pictures and the camp followers. The moving picture industry can't afford to have the business in such disrepute.

"It is not true, however, that Hollywood is a hotbed of immorality. The fast set of the movies is made up largely of the slap stick comedians and second raters. The Charles Raya, Bill Harts, Douglas Fairbanks, and the majority of the favorites are decent,

law-abiding citizens. It would be hard to find a more ideal young married couple than Charles Ray and his wife, Fairbanks and Mary Pickford are devotedly in love and Bill Hart is an unassuming businesslike fellow. Mary Miles Minter, and the girl stars of her class are well protected by ever-present mothers.

CAMERA DOESN'T LIE

"The movies demand youth and beauty. The camera does not lie. There is probably no community this side of paradise with so many beautiful girls as Hollywood and probably no place with as many wifely mamas. Furthermore it is hard work. The actor works from sun-up to sun-set and in a great many pictures there is always an element of danger. For the most part it is a beautiful outdoor life and the recreations of the movie people are outdoor sports. They go in for motor-ing, swimming, tennis and boating.

"Most of the notoriety is brought upon the colony by the second raters and the camp followers. There are always a large number of idle rich men's sons in Los Angeles and they are drawn to Hollywood. Certain cafes that cater to the movie people are scenes of wild parties. On the other hand, professional jealousy and envy often causes the would-be element to circulate malicious stories about the private lives of the stars.

"There is a very distinct line between the class of actors who perform in the low comedies and the so-called straight actors and light comedians. There are two hotels in Hollywood, one known as the Hollywood and the other owned by a promoter of comedies and patronized largely by that element.

"While I was in Hollywood a second-rate low comedian distinguished by his long nose and over-sized derby hat went on a tour. From time to time there would be reports of other wild parties. 'I believe that the Arbuckle affair

will cause the movie producers to pay more attention to the private reputations of their performers. The greatest good, however, will be accomplished by enforcement of the dry law at Los Angeles and San Francisco.

"I do not like to see the entire profession of movie acting besmirched because I met a great many delightful people at Hollywood who do not deserve the reflection of the vicious element. While movie actors are paid more and it has been an over-paid profession for a great many, life is not all a bed of roses for the player-folk and the great majority have worked very hard to succeed.

"Arbuckle is just one of the bumps that the mushroom fortunes of the movies fell upon. I know the temper of the people of California and I expect to see him receive the extreme penalties if the evidence shows him to have committed the attack with which he is charged. The crime is a blight on the picture industry and a great many innocent people will suffer as well as the guilty."

HOW TO GUARD AGAINST APPENDICITIS ATTACK

Appendicitis is an intestinal infection often due to old, retained waste matter. Even though bowels move daily, poisons may accumulate in the system for months. The intestinal antisepsis, Adler-Ika, acts on BOTH upper and lower bowel and brings out matter which might start an appendicitis infection. EXCELLENT for gas on the stomach and chronic constipation. Adler-Ika brings out matter which you never thought was in your system. Summers Pharmacy, Hohman near State St. Sold in Indiana Harbor and East Chicago by Central Drug Store.—Adv.

ARBUCKLE GETS MANY TELEGRAMS

INTERNATIONAL NEWS SERVICE
SAN FRANCISCO, Sept. 14.—As Rose-
con "Fatty" Arbuckle left the county
jail today to attend the inquest into
the death of Virginia Rappo, a hand-
ful of telegrams were thrust into his
hand as he passed through the office of
the jail.

It was said at the office that 16 tele-
grams had been received overnight for
the film star, but their contents was
not made public.

Arbuckle with the permission of two
detectives who are constantly at his
side, retired to a corner to read heart-
ily through the batch of telegrams.

Once or twice a faint smile was seen
to flick across his face as he read the
messages.

ULSTER UNIONISTS ARE TURNED DOWN

(BY EARL C. REENES)
LONDON, Sept. 14.—The Ulster Union-
ists have requested representation
at the proposed Irish Peace conference
at Inverness, but were refused by Pre-
mier Lloyd George. It was learned this
afternoon. The promise contends the
conference with the Sinn Feiners is
but a preliminary meeting and that later
a general parley will be held, when
all Irish factions will be represented.

AT DEATH'S DOOR

"Ten years of stomach trouble re-
duced me to a living skeleton. I was
attacks of pain that doubled me up
into a jack-knife and I was as yellow
as a gold piece. No medicine or
doctors helped me and was really at
death's door. A lodge brother advised
me to try Mayer's Wonderful Remedy,
and I found it to be the only
medicine to touch my case." It is a
simple, harmless preparation that re-
moves the catarrhal mucus from the
intestinal tract and allays the inflam-
mation which causes practically all
stomach, liver and intestinal ailments,
including appendicitis. One dose effi-
cacious or money refunded. Sum-
